Commentary- Cheryl Beranek, President & CEO of Clearfield

"Increases in revenues for the 2014 second quarter were led by sales of \$2.2 million dollars into international regions, an increase of more than 250% for those markets. Products were shipped to ongoing builds in Panama, Trinidad, Cayman Islands, Barbados, and Honduras. Sales to customers outside of the U.S. represented 17% of sales for the quarter and 11% year to date. Of significance, more than half of those revenues were associated with the deployment of FieldShield, our new pushable fiber delivery product line, announced last spring. FieldShield simplifies the installation and reduces the cost of broadband deployment. When announced, we indicated that FieldShield doubles our revenue potential per home connected to fiber. We believe these international sales demonstrate the early successes the Company is experiencing with this product offering."

"Domestic sales were up 11% for the quarter. Instrumental to these revenue gains was an increase in sales of \$716K in sales to our largest customer, which represented 22% of total sales for the second quarter of 2014. Domestic sales outside of our largest customer were slightly up for the quarter, reversing a small dip in the first quarter. The difficult and lengthy winter across the United States has affected business throughout the country, but we anticipate this to be resolved as the construction season develops. The resulting decrease in backlog numbers reflects these construction delays, yet current market development and quoting activity is strong. As Clearfield's business model is based on a book and ship process, our rapid delivery times, on average only eight days from receipt of purchase order, enables Clearfield to be well positioned to capitalize on accelerating customer demand in the spring and summer quarters."

"As our business grows, we are embracing the opportunities to expand our base of influence with the strategic partnership of targeted distribution partners. Allowing our enduser service provider customers to purchase through a distributor or directly through Clearfield, provides our end-user customer the choice that best meets their business needs and allows Clearfield to best scale our operations. In second quarter, our sales through distribution increased to 40% of sales, in comparison to 37% in the same quarter last year. An ongoing and continual focus on lowering our cost of goods, through aggressive new product development, manufacturing improvements and product sourcing programs, allowed us to support the pricing models of distribution while improving our gross margin percentage by more than three points during the period. Our focus on reducing not only our cost of goods but also on delivering solutions that reduce the cost of deployment for our customers results in a strong value proposition for our customer communities."

About Clearfield, Inc

Clearfield, Inc. (NASDAQ: CLFD) designs, manufactures and distributes fiber optic management products for the communications networks of leading ILECS, CLECs, MSO/cable TV companies and mobile broadband providers. We help service providers solve the Fiber Puzzle, which is how to reduce high costs associated with deploying, managing, protecting and scaling a fiber optic network to deliver the mobile, residential and business services customers want. Based on the patented Clearview™ Cassette, our unique single-architected, modular fiber management platform is designed to lower the cost of broadband deployment and maintenance by consolidating, protecting and distributing incoming and outgoing fiber circuits and enable our customers to scale their operations as their subscriber revenues increase. Headquartered in Plymouth, MN, Clearfield deploys more than a million fiber ports each year.

Forward-Looking Statements

Forward-looking statements contained herein are made pursuant to the safe harbor provisions of the Private Litigation Reform Act of 1995. These statements are based upon the Company's current expectations and judgments about future developments in the Company's business. Certain important factors could have a material impact on the Company's performance, including, without limitation the effect of the significant downturn in the U.S. economy on Clearfield's customers; the impact of the American Recovery and Reinvestment Act or any other legislation on customer demand and purchasing patterns; cyclical selling cycles; need to introduce new products and effectively compete against competitive products; the effectiveness of distributors and new selling channels; dependence on third-party manufacturers and the availability of raw materials, particularly fiber; the success of efforts to reduce expenses through manufacturing improvements and procurement; reliance on key customers; rapid changes in technology; the negative effect of product defects; the need to protect its intellectual property; the impact on its financial results or stock price of its ability to use its deferred tax assets, consisting primarily of net operating loss carryforwards, to offset future taxable income; the valuation of its goodwill and the effect of its stock price, among other factors, on the evaluation of goodwill; and other factors set forth in Clearfield's Annual Report on Form 10-K for the year ended September 30, 2013 as well as other filings with the Securities and Exchange Commission. The Company undertakes no obligation to update these statements to reflect actual events.
