

Application

Engineered to land FTTH terminations as conveniently as possible, the FieldSmart Mini TAP Box is optimized for delivery of FieldShield® FLEXdrop® via a FLEXdrop Deploy Reel and Slack Storage Reel. The lockable enclosure is compact and sealed, making it ideal for a variety of applications, including harsh environment locations surrounding the fiber demarcation point.

Description

The FieldSmart Mini TAP Box offers single or dual count fiber deployment in a discrete footprint and without sacrificing proper fiber management. The FieldSmart Mini TAP Box is designed to make FTTH more cost-effective and efficient than previously thought possible. Standardizing on a craft-friendly, building block architecture reduces the operating costs of fiber deployments by reducing installation times and inventory carrying requirements.

Features and Benefits

Integrity

- UV Stabilized
- Supports industry standard SC and LC singlemode connectors with the FLEXdrop Deploy Reel
- Dual snap locks ensure lid seals to base
- Mounting hole pattern for multiple applications

Protection

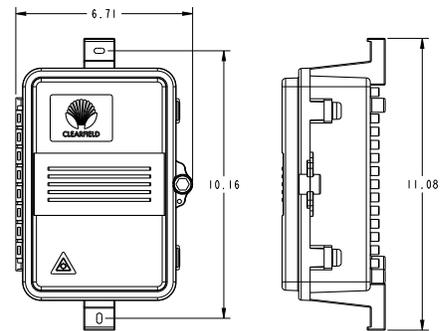

- Designed to comply to GR-771 and NEMA-4
- Gasket seal
- Ground lug included

Access

- One-Inch on center holes for easy installation of deploy reel mounting pin
- Easy to install with both internal and external mounting holes
- Two bottom entry/exit points utilizing multi-purpose strain reliefs
- Option for adapter mounting bracket

Investment

- Holds up to 100 feet of FLEXdrop on Deploy Reel, with 50 feet of 3mm cable slack storage
- Surface or pole mount capable
- Flame retardant PVC for durability

Pre-Configured Part Numbers

Part Number	Description
FDRG-ZZZZ-MGLZ	Mini-TAP Box, L-Bracket (No Adapter), 3/4" Adapter and Grommet
FDRG-ZZZZ-HHZZ	Mini-TAP Box, Deploy Reel Mounting Plate with No Adapters, Strain Relief and Strain Relief
FDRG-ZZZZ-HHLZ	Mini-TAP Box, L-Bracket (No Adapter), Strain Relief and Strain Relief
