

Large Aerial Microduct Attachments

Description

FieldShield Large Aerial Microduct Attachment provides the quickest and easiest way to attach FieldShield Large 14/10 Figure-8 Microducts. Simply strip away the jacket from the support strand on the microduct to accommodate the dead end and place the attachment over the strand. As the strand is tightened, it pinches and creates a secure and permanent installation.

Pre-Configured Part Numbers

Part Number	Description
FS-DEADEND-LG1410	Microduct, Aerial 14/10 Dead End, Large Cable

D-ROP Aerial Microduct Attachments

Description

FieldShield D-ROP Microduct Attachments provides the quickest and easiest way to attach FieldShield D-ROP 7mm Microduct. Simply place the pinch bracket around the D-ROP and pull to secure. As the strand is tightened, it pinches to secure the duct.
