Commentary- Cheryl Beranek, President & CEO of Clearfield

"We were pleased with our start to the year and with meeting our revenue plan for the first quarter. While a single broadband service provider represented nearly half of the revenues recorded in the first quarter of fiscal year 2014, revenues this quarter were distributed among a broad base of customers. While Clearfield continues to fulfill demand on an as needed basis for this large account, revenues to customers other than last year's largest customer grew nearly 60% this past quarter.

"Leading revenue growth were sales to MSO's (cable operators) of \$1.4 million in the fiscal 2015 first quarter, which is more than double over the fiscal 2014 first quarter. Our national account efforts within the cable television space teamed with our demand creation at the regional level has resulted in increasing sales at several major accounts. International sales grew 33%, to \$1.35 million in the fiscal 2015 first quarter, in comparison to just over \$1 million in the first quarter of the previous fiscal year. In addition to ongoing sales increases in the Caribbean and Central American markets, this quarter saw the first meaningful revenue for a project in South Africa.

"Gross profit was negatively affected by product mix as well as start-up costs associated with our expanded capacity initiatives in Mexico. We remain confident that our investments in capacity in the U.S. and Mexico are in the long-term best interest of the company.

"Moving forward, we remain comfortable with our previously issued outlook for fiscal 2015 that Clearfield's revenue will continue to grow at an annual pace consistent with our historical compounded annual growth rate of nearly 17%."

Forward-Looking Statements

Forward-looking statements contained herein and in the FieldReport are made pursuant to the safe harbor provisions of the Private Litigation Reform Act of 1995. Words such as "may," "will," "expect," "believe," "anticipate," "estimate," "outlook," or "continue" or comparable terminology are intended to identify forward-looking statements. Such forward looking statements include, for example, statements about the Company's

future revenue and operating performance, growth of the FTTH market, effectiveness of the Company's sales and marketing strategies and organization, utilization of manufacturing capacity, and the development and marketing of products. These statements are based upon the Company's current expectations and judgments about future developments in the Company's business. Certain important factors could have a material impact on the Company's performance, including, without limitation: our results of operations could be adversely affected now that the stimulus funds of the American Recovery and Reinvestment Act are fully allocated and projections are nearing completion; National Broadband Plan's transitioning from the USF to the CAF program may cause our customers and prospective customers to delay or reduce purchases; a significant percentage of our sales in the last two fiscal years have been made to a small number of customers, and the loss of these major customers would adversely affect us; intense competition in our industry may result in price reductions, lower gross profits and loss of market share; our results of operations could be adversely affected by economic conditions and the effects of these conditions on our customers' businesses; our operating results may fluctuate significantly from quarter to quarter, which may make budgeting for expenses difficult and may negatively affect the market price of our common stock; to compete effectively, we must continually improve existing products and introduce new products that achieve market acceptance; we may face circumstances in the future that will result in impairment charges, including, but not limited to, significant goodwill impairment charges; we rely on single-source suppliers, which could cause delays, increases in costs or prevent us from completing customer orders, all of which could materially harm our business; our success depends upon adequate protection of our patent and intellectual property rights; further consolidation among our customers may result in the loss of some customers and may reduce sales during the pendency of business combinations and related integration activities; we are dependent on key personnel; product defects or the failure of our products to meet specifications could cause us to lose customers and sales or to incur unexpected expenses; and we face risks associated with expanding our sales outside of the United States; and other factors set forth in Clearfield's Annual Report on Form 10-K for the year ended September 30, 2014 as well as other filings with the Securities and Exchange Commission. The Company undertakes no obligation to update these statements to reflect actual events.
